

MYSELF

My name's **Erika MUÑOZ** and I'm

14. I was born in Gifhorn

(Germany) on the second of October in 1992. Gifhorn is a beautiful village near Hannover. I have never seen Germany except in photos because I

came here when I was a baby. Maybe you're asking yourself why I was born there, well it's a little complicated to explain: my father was working in a big company and he travelled to Germany very often and my parents decided to move there and stay two years. When I was born, we came back.

Now I live in Villava, a small town in Navarra, next to Burlada and very near Pamplona. I like Villava very much, it's very small but there are a lot of people living there. My favourite place in Villava are the "**Monticulos**", it's a small mountain with some trees and grass, we can sit there, play football and a lot of things, in summer the council installs a big screen and we can watch many films. The worst site in Villava is the river because it's very, very dirty; the water is brown and there's a lot of rubbish in it.

Now I'll try to describe myself: I'm 1'60 meters tall and a slim girl, my hair is long, wavy and black, I have a fringe that covers my right eye, my eyes are brown like my father's eyes, my family says that I look like my father. I always wear earrings, in my left ear I have two. I don't like my appearance but I think that no girl in this world is happy with hers. People say that I'm a person who talks a lot, I'm very sociable and I listen to my friends when they have problems. I'm very insecure because I think that all the things I do are wrong. I'm also a little shy but when I trust somebody I'm very talkative.

A normal day in my life is just always the same: I get up at 7 o'clock, have breakfast, have a shower, do my bedroom, dress up, etc. At 8'00 I meet with my friends and we go together to the institute.

Classes start at half past eight and finish at half past two, but 11'15 we have the break time to have a snack, talk with our friends...

My favourite subject is Biology because I like animals, plants, and those things a lot. I also love P.E. because is fun and I have good time in class. The subject that I don't like is Math because is difficult to understand and to solve the exercises, my only way to pass it is study a lot at home and ask my father for help. When the classes finish I come back home, eat with my mother and then I do my homework, sometimes she lets me use the computer in the evening but she thinks that evenings are to study. At night I watch TV from 22'00 to 23'0, my favourite TV programme is "**House**", it's a series about a doctor who's irritating and he's always doing amusing comments.

I go to bed at quarter past eleven.

In my free time I like to surf in the net, my favourite web pages are one of games and others of music groups. I also chat with my friends in the messenger, I think it's very useful to talk with people who live far, for example my cousin, he lives in Zaragoza and we chat every day and I tell him all the things that happen to me.

I love reading and listening to music! Reading is good and we can learn a lot. My favourite book is "**Marina**" by Carlos Ruiz Zafón, he's a good writer. Now I'm reading "**Eragon**" and I hope to read "**Harry Potter 7**" soon.

About music, I love it! I'm all the day listening to CDs of *Green day* or *Sum 41*, they do good music, I like rock very much because there're a lot of guitars.

Playing the guitar and the electric guitar are the things that I adore, when I play them I feel all my problems disappear and I like that feeling. I prefer to play the electric guitar because it allows me to play a lot of styles, from Blues to Rock. On Thursdays I attend to electric guitar classes with a friend. We're one hour playing and it's great because the teacher, Alberto, is a nice boy and we enjoy a lot in his classes.

Hello!!! My name is **Iñigo PEREZ**, I'm a boy and I am 15. I was born in Honduras but when I was four years old me and my family came to Navarra (Spain), but only me and my brother are from Honduras, my parents and my sister are from Spain. Now I'm living on a flat in Villava (Navarra), near Pamplona.

Physically I'm thin and medium height, my hair is between black and brown, I have short hair and my eyes are brown.

I'm studying in Ibaialde High School in Burlada. My hobbies are football, cycling, athletics and climbing. I train athletics on Monday, Wednesday and Thursday evenings, and on Saturdays in the morning, and I also train football on Tuesdays, Thursday and Fridays. I do climbing and cycling with my friends. I think one of the important things of life is to be happy and I am happy when doing these sports and going out with my friends, because the friends are very important to be happy.

I'm cheerful and I think I'm friendly, but my friends know this better than me.

My friends are very different, Iñigo is tall and thin but Aitor is smaller than Iñigo but he is well-built. Iñigo's hair is fair and Aitor's isn't fair, he has brown hair. In my friends group there are five or six boys and six or seven girls, we usually go out in Burlada but occasionally we go to Villava and we sit in the "*monticulo*", "*monticulo*" is a park of Villava near my house.

Well, Villava is a small town near Pamplona, approximately 10 minutes on foot. Villava has 1 km² of extension, It's the smallest town in Spain, it has three schools and one High School, but the High School and one of the schools are in Basque. The festivals of Villava are in the first and second weekends of October.

That's all!!!!!!!

Hi! My name is **Natalia MEDINA** but my friends call me Nata or Naty. I'm fifteen years old and I'm a normal teenager. I have lived in Burlada all my life, in a flat with my family. In my family we are four; my parents, my sister and I. Ah! And my cat

Axel, of course he is not a person but we really love him. My mother's name's Josefa and my father's name's Francisco Antonio. My sister is 18 years and her name is Laura.

My life is like the other teenagers'. In the morning I go to the High School but in the afternoon I do a lot of things like karate, go to English classes, painting, theatre and sometimes horseball or riding. I do these because I need them. I live a stressed life because I'm always busy. I do karate because it makes me relax while I'm fighting with somebody. I'm crazy about painting, I have painted all my life.

I go to English classes because I like learning other languages and I need it to help me pass the School of Language's exams.

However, I always find time to go with my friends and do my homework, well, not always, but I try it

At night I watch a little bit television, then I go to bed early more or less, but sometimes I stay in the living room until twelve o'clock.

I think you have learnt enough about me so I finish this writing.

Myself

My name is **Ainara ARCELUS** and I'm 15 years old. I live in a flat in Burlada, a small town near Pamplona. I live here with my parents and my two brothers.

I like football a lot and I go every Saturday to watch my brothers' match. I play football in my village because we have a football team. During de week I dance *batuka*, a *Basque dance*, on Monday and Wednesday. Also I love walking in the mountains.

First I'm going to tell you about my parents, they are 49 years old. My father is called Carlos and he works in a big factory situated in Villava (Villava is near Burlada). In this factory, above all, they recycle paper. He loves sports. He plays pelota in Amaya's club. Also he doesn't miss a Barcelonas's match. Well, really he doesn't miss a football match, it doesn't matter the team. And his other passion is the music. He plays *trikitixa*, a *Basque instrument*, and he sings in San Blas' choir.

My mother is Begoña. She is a housewife but she is busy all the day. Normally she cooks but usually we help her. She loves reading. She prefers mystery books. She watches a lot of films but she detests TV.

My elder brother is Alfredo. He is 25 years old (I tell him that he is very old and he gets angry with me). He loves football too, for that he plays in a football team called Aoiz. He works in a factory drawing with the computer. His girlfriend is called Irantzu and also she is 25 years old. She is an engineer.

Carlos is my other brother. He's 23 years old. He was living in Figueras, a town in Cataluña, because he was playing in a football team there. He was in Figueras from January until June, now he lives in my house and he works in a computer factory. Now he

also plays football like my other brother in Aoiz.

Well that's all more or less about me and my life. Bye bye!!

Myself

In this composition, I am going to write about me. My name is Sandra, I have brown curly hair, and I'm not very tall. I'm 14 years old because my birthday is in November and as now it is September...

I live in Burlada, with my mother Amaia and my little brother Javier. My father lives in another house in other village (Aizoain) because my parents are separated, and I go with him two weekends every month. I hate this village because I haven't got any friends, the other boys and girls are 4, 5, 6 years old.

I study in Ibaialde, the institute of my city, 4 of ESO, the last year. Next I'll study bachiller. I'm a good student, I have good marks but I don't like studying a lot... I prefer going out with my friends. My favorite subject is music, I love music but this year I don't study it because I have different subjects every year.

I have two different hobbies: music and swimming. I study music in Burlada, at Hilarion Eslava School of music, and I play the clarinet, this is my 10th year... I love it, is very relaxing. My other important hobby is swimming in C.N. Burlada, 5 days a week, and two hours a day. Some weekends I have competitions, and they are very interesting and my club is very good.

In my free time, I love going out with my friends, that's the best!!!

Myself

Hello!

My name is **Noemí MOLINA**. I'm 14 years old and I'm a pupil of 4ºA, year 10. This is the first composition of the year and it must talk about my daily life, so it's an introduction.

I'm going to start with my personal data. I was born in Pamplona but I lived in Malaga from 1996 to 2006.

Last year my parents decided to come back here, because they wanted to be with the family.

Well, I don't know what to tell you about my hobbies, so I can talk about my daily life.

Normally, I get up as late as possible because I love sleeping. Then, at 7.45 more or less, I have breakfast, it usually consists of a cup of milk and some biscuits, but not very often I also have cereals. Later, I prepare the books if I didn't do it the night before and I get dressed very fast. I brush my teeth and my hair and at a quarter past eight I go to Helena's house to go together to the high school.

In the afternoon, I do the homework, study (if I need or it's necessary) chat with my friends and watch TV. At 10 o'clock I have dinner and I lie in the sofa until 11 when I go to bed. I have enrolled for salsa dances; it's on Fridays (2 hours) and during the other days I don't attend any other activity.

Now, I prefer to talk about myself. I'm a tall and slim person and I've got dark brown hair and eyes. My mouth isn't big and my legs and arms are long.

Also I'm active, cheerful and friendly, of course, I'm honest too.

I live in the beginning of Burlada next to cuesta Beloso; with my brother, sister and my parents.

I would like to study some career of translation or languages because I think that I'm good at them, and they're very useful.

I'm going to tell you goodbye to you and I hope you like my composition.

Best wishes,

Noemí Molina Fuentes

Myself

My name's **Ariadna SOTERAS**. I'm a

teenager; I'm 15. My birthday was on July 16th. I was born in Pamplona and when I was a baby I lived in Mutilva Baja. Now I live in Burlada. I've been living here for 11 years. I live with my

parents and with my younger brother. I don't usually get on with him, but I love him so much!!

My character is quite changeable. When I'm happy, everything seems the best, everything is perfect, I'm a decisive person and very cheerful. But when I'm sad, I'm serious, sensitive and I hardly ever smile. But most times I'm usually cheerful. I'm pessimist but realistic.

Physically I'm not rather tall, I'm thin and I feel I'm a normal girl. I have blond-brown hair (I've never known if I am blond or not). I have melancholic eyes. My mother loves them.

I'm a trusting girl, and the person who understands me most is my mother. I tell her everything, absolutely everything. I could say that she's my best friend and my confident.

At school I think that I'm good. I don't like studying but I know that if I want to be someone important in my life I have to study. I'm not sure what I want to study in the future, but what I know is that I want to open doors in my life. One way is to know how to speak English like Spanish. It's a wish.

I'm not a sporty woman. I like swimming and riding bicycle but alone or with friends. I don't like competitive sports. I love meeting people. When I meet more people is in festivals. Also I love animals, specially cats. I want one!! But my father doesn't think the same. Until he changes of opinion, I'll continue trying it! I'll get to convince him, or I hope it!

Me and my Family

My name is **Aitor PALOMO** and I'm fifteen years old and I live in Villava at Ezcaba street number 5 3rd D. I live in a flat with my parents and my brother and sister.

I have one brother and one sister. My brother's name is Javier and he is medium-height and is younger than me. My sister's name is Naiara and is medium-height, and she's got curly black hair and is younger than me.

My father's name is Pedro and is taller than me and he's got straight black hair. He is a police man, that's his job. My mother's name is Juani and is medium-height; she's got straight blond hair. She is a P.A. that's her job.

And me I have straight black hair and I' am medium-height too. I go to Ibaialde High School and I' am in 4º A, year 10. On Mondays and Thursdays I go to train and on Saturdays or Sundays I go cycling with my friends to the mountain.

On Saturdays or Sundays I go to my village Larrasoña, near Pamplona. In Larrasoña they have one **frontón** to play Pelota Vasca, a typical sport here you play with a hard ball and only your hands: *it's really hard!!* Me and my brother play a lot there.
